

YOUR INNOVATIVE PARTNER

Discover the unmatched standard of quality, reliability
and dedicated service that defines Galaxy.
We invite you to experience our expertise firsthand and look
forward to partnering with you on your next project.

Who We Are

Established in 2010, Galaxy is a leading engineering, trading, and services company based in the Kingdom of Saudi Arabia. We provide comprehensive MEP solutions and advanced fire protection systems across a broad spectrum of industries. From commercial high-rises to industrial mega-projects, our technical expertise and commitment to continuous improvement ensure we deliver the highest standards of reliability and business excellence.

Why Choose Galaxy

Expert Advice & Rapid Response

Kingdom-wide support backed by a responsive, solution-driven engineering team.

Extensive Range

Market-leading products selected for difficult and challenging applications.

Service Capacity

Fully equipped to deliver turnkey projects, mechanical/electrical installations, and comprehensive maintenance programs.

Our Major Projects

- Various Data Centers
*confidential

The Project Lifecycle

We provide end-to-end MEP and fire protection services designed to maximize efficiency at every stage of your building's lifespan.

Planning: Energy-efficient system design, exact product selection, and precise engineering calculations.

Construction: Streamlined logistics, pre-fabrication, and timely site delivery for seamless integration.

Commissioning: Rigorous site testing, custom system training, and flawless operational handover.

Operation & Maintenance: Smart performance monitoring, precision metering, and preventive maintenance.

Renovation & Retrofit: Upgrading legacy installations to guarantee modern efficiency, comfort, and circularity.

Industries Served

- Data Centers
- Commercial Buildings
- Hotels
- Shopping Malls & Department Stores
- Hospitals
- Schools and Universities
- Manufacturing Facilities & Warehouses
- Government Buildings
- Housing Projects

Valves, Hydronics & Metering

Total System Control

Galaxy provides precision flow control, dynamic pressure management, and smart metering technologies. Our hydronic solutions are trusted by leading facilities globally to maintain optimal system balance, safety, and highly accurate energy tracking.

Core Capabilities:

Chilled Water & Plumbing Valves (Gate, Globe, Butterfly, Ball)

Pressure Independent Control Valves (PICV) & BTU Meters

Digital & Thermostatic Mixing Valves

Air/Dirt Separation, Degassers, and Expansion Vessels

Pumping & Heat Transfer Solutions

Precision Flow & Thermal Management

We deliver high-performance pumping and heat transfer solutions engineered for domestic, commercial, and industrial applications. Our robust systems ensure maximum efficiency and continuous reliability for water supply, sewage evacuation, and critical HVAC networks.

Core Capabilities:

Volumetric, Submersible, and Drainage Pumps

Packaged Booster and Fire Pump Sets

Plate Heat Exchangers for HVAC and Industrial Cooling

Piping, Insulation & Composite Repair

Infrastructure Integrity

Built for longevity, our piping and insulation networks meet rigorous international safety and durability standards (EN ISO, DIN). We also provide advanced composite wrap technologies for the rapid, high-strength structural repair of critical pipeline assets.

Core Capabilities:

PEX, PPR, and Multilayer Piping Networks

NBR Rubber Insulation (CFC-free & eco-friendly)

Composite Wrap Systems for High-Pressure Asset Repair

Fire Detection & Protection

Safeguarding Lives and Assets

As an approved contractor with the Saudi Civil Defense, we provide end-to-end fire and life safety systems. Our 24/7 rapid-response teams ensure your facilities remain compliant and fully protected against fire and life-safety risks.

Our Services:

Consultancy & Design: Custom engineering, system integration for large-scale projects, and official approvals.

Installation: Complete deployment of detection alarms, gas extinguishing (NOVEC™ 1230, FM200®), and water/foam sprinkler systems.

Maintenance: Comprehensive Annual Maintenance Contracts (AMC) and emergency repair.

Equipment Supply: Fire pumps, extinguishers, specialized reels, and fire-rated doors.

ALBION VALVES: CHILLED WATER APPLICATIONS

With over 40 years of industry expertise, Albion Valves (UK) Limited delivers complete, quality valve solutions and exceptional support to independent distributors.

GENERAL VALVES

Gate, globe, check, butterfly, ball, lockshield, and strainers (common to both systems).

CHILLED WATER FLOW & PROTECTION

Balancing valves (DRV), motorized butterfly valves, air vents, test points, drain cocks, suction diffusers, triple-duty valves, pressure relief valves, expansion bellows (rubber/SS), and dielectric unions/flanges.

PLUMBING FLOW, REGULATION & SAFETY

Direct-acting and pilot-operated pressure reducing valves, float valves, solenoid valves, backflow preventers, water hammer arrestors, hose bibs, and vacuum breakers.

DANFOSS PICV & METERING SOLUTIONS

Danfoss is a global leader in high-quality components for residential and industrial heating, plumbing, HVAC, and renewable energy systems.

PRODUCT RANGE:

- Pressure Independent Control Valves (PICVs)
- BTU / Energy Meters
- Differential Pressure Control Valves (DPCVs)
- Control & Regulating Valves
- Solenoid Valves

CoolTrain™

Danfoss Liquid Cooling Solutions feature the CoolTrain™, a ready-built, plug-and-play valve train system designed to connect data center server racks to main liquid cooling loops.

GULF-O-FLEX INSULATION (RUBBER WORLD INDUSTRY)

A world leader in NBR rubber insulation, Gulf-O-Flex offers eco-friendly, fiber-free, CFC-free, and low-VOC solutions that resist mold and comply with international standards.

TUBE & COIL RANGE:

Unfaced or faced (FSK, Aluglass, Aluclad), available with slit and self-adhesive options.

SHEET & ROLL RANGE:

Rolls and boxes in unfaced or specialized facings (FSK, Aluglass, Aluclad, Black Glass Cloth), with or without adhesive.

ACOUSTIC & SPECIALTY INSULATION:

Soundproofing, duct liners, vibration/base control, duct outer process sheets, flooring (3mm), and sports track materials.

VENTS VENTILATION SYSTEMS

Vents offers a certified, energy-efficient range of international ventilation equipment designed for safety, reliability, and high performance.

DOMESTIC VENTILATION

Axial fans, centrifugal fans, ceiling exhaust fans, and air inlets.

COMMERCIAL & INDUSTRIAL VENTILATION

Inline, roof, kitchen, axial, chimney, and radial fans, alongside air curtains.

SMOKE EXTRACTION

Axial and centrifugal smoke extraction fans, and jet fans.

FLAMCO & COMAP (AALBERTS HYDRONIC FLOW CONTROL)

Established in 1956 and part of Aalberts NV, Flamco specializes in high-quality HVAC components and provides thermal and sanitary solutions for building comfort. Flamco became part of Aalberts Hydronic Flow Control in 2020.

EXPANSION AND PRESSURIZATION UNITS

- FLEXCON - Expansion Vessels
- AIRFIX - Expansion Vessels
- FLAMCOMAT - Expansion Automats
- FLEXFILLER - Pressurization Units

AIR & DIRT SEPARATION EQUIPMENT

- FLAMCOVENT & Clean Smart - Air/Dirt
- Separators
- FLEXVENT - Air Vents
- VACUMAT - Vacuum Degassers

INTEGRA METERING (FORMERLY AQUAMETRO AG)

Founded in Basel in 1928, Integra specializes in advanced metering technology, offering sizes from 15mm to 200mm with diverse communication interfaces (Wireless M-Bus, LoRa, KNX, BACnet, Modbus, etc.).

WATER METERS

Residential ultrasonic free-flow smart meters, and ultrasonic meters for district heating and building automation.

ENERGY & THERMAL CALCULATORS

Compact energy meters and multifunctional heat/cold calculators for local and district heating.

DATA & COMMUNICATION

Water meter communication modules, M-Bus data centers, and M-Bus dataloggers.

SONFLOW PLATE HEAT EXCHANGERS

Backed by 45+ years of experience and ISO 9001 certification, SonFlow delivers customized, energy-efficient heat transfer solutions for HVAC, sanitary, and industrial applications worldwide.

TYPES OF PLATE HEAT EXCHANGERS

- Traditional Plate Heat Exchangers - Gasketed PHE
- AHRI-Certified Plate Heat Exchangers - AHRI PHE
- Free-Flow Plate Heat Exchangers - Free-Flow PHE
- Sanitary Plate Heat Exchangers - Sanitary PHE
- Condenser/Evaporator Plate Heat Exchangers - Condenser/Evaporator PHE
- Brazed Plate Heat Exchangers - Brazed PHE / BPHE
- Double-Wall Plate Heat Exchangers - Double-Wall PHE

AHRI & PED Certified

EUROTHERM PPR PIPING

Manufactured in Saudi using advanced German technology, Eurotherm provides ISO-certified, durable, corrosion-resistant PP-R piping systems compliant with DIN and ISO standards for hot/cold water supply, heating, cooling, and industrial applications.

AVAILABLE RANGES

PIPES

PP-R Pipes (PN16, PN20, PN25) and UV-resistant PP-R pipes.

FITTINGS & VALVES

Elbows, tees, sockets, reducers, male/female threaded fittings, ball valves, and stop valves.

ACCESSORIES & TOOLS

Pipe clips, end caps, unions, flange adapter sets, fusion welding machines, and pipe cutters.

INTERPLAST PEX & PPR PIPING SYSTEMS

Headquartered in Greece and trusted across 70 countries, Interplast manufactures premium plastic piping systems engineered for modern plumbing, HVAC, and district heating with a certified 50 to 100-year service life.

WATER SUPPLY & PLUMBING

AQUA-PLUS (PPR/PPR-CT pipe networks and fittings for sanitary water) and COMO-PEX (PEX-b pipes for underfloor heating and plumbing).

MULTILAYER & FLEXIBLE PIPING

COMOPEXALPEX (5-layer pipes with an aluminum oxygen barrier) and COMO-PERT (flexible PE-RT piping for hot/cold water and radiant heating).

SPECIALIZED NETWORKS & DRAINAGE

AQUA-PLUS PRINS (pre-insulated pipe-in-pipe for district heating/cooling) and ATLAS PLUS ECHO-SILENT (3-layer PPMD drainage systems for noise suppression down to 15dB).

THERMOSTATIC AND ELECTRONIC MIXING VALVES -CALEFFI

Caleffi manufactures high-quality components for heating, plumbing, air conditioning, renewable energy, and metering systems. The company offers a reliable, globally trusted range of central and individual thermostatic and electronic mixing valves for residential, commercial, and industrial applications.

CALEFFI ALSO OFFERS THE FOLLOWING SOLUTIONS

- Thermostatic mixing valves
- Thermal balancing valves
- Fuel shut-off valves
- Temperature relief valves
- Differential by-pass valve
- Instrument holders
- Flow switches
- Automatic shut-off cocks
- Thermostats and pressure switches
- Digital mixing valves - Legiomix

ESPA PUMPING SOLUTIONS

Founded in 1962, ESPA is internationally recognized for continuous innovation, high efficiency, and sustainable water management.

GROUNDWATER

Submersible pumps for wells and tanks, engineered for any depth, flow rate, or pressure requirement.

WATER SUPPLY

Boosting systems designed to optimize water pressure and ensure reliable hydraulic comfort.

RECIRCULATION & FILTRATION

High-efficiency, low-noise pool pumps (including variable-speed options) for optimal water health and filtration.

EVACUATION

Reliable drainage and sewage pumps for garages, flooded basements, and general water or waste evacuation.

TERAL PUMPS

Founded in 1918, Teral is a specialized manufacturer of high-performance pumps and fans with over a century of proven credibility and safety.

WATER SUPPLY & FIRE PUMPS

Powerful, space-saving, and energy-efficient designs built for high durability and workability.

SUBMERSIBLE PUMPS

A wide selection for freshwater, deep wells, drainage, rainwater, construction sites, and septic tanks.

HOUSEHOLD PUMPS

Tailored solutions for single-family homes, apartments, and condominiums (including well-water boosting and tap pressure).

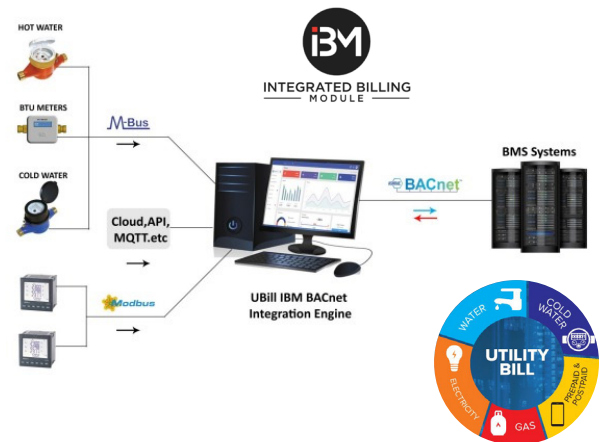

CONNECT ME

ConnectME software covers utility billing software, tenant billing software, UBILL AMR, MDMS, meter data management, EMS software, energy dashboards, prepaid billing and maintenance management for multi-tenant buildings.

- Multi-protocol data handling — M-Bus, Modbus, BACnet, DLMS, and manual import
- Live reading dashboard with customizable parameters
- Customizable billing, payment, and meter-reading reports
- More than 50 report formats with live data visualization
- BMS integration for two-way data exchange
- Multi-meter billing for electricity, gas, water, chilled water, and hot water
- 3D dashboards for monthly and yearly billing and payment comparisons
- Smart valve interface for remote disconnection and reconnection

BRANNAN THERMOMETERS & MEASURING DEVICES

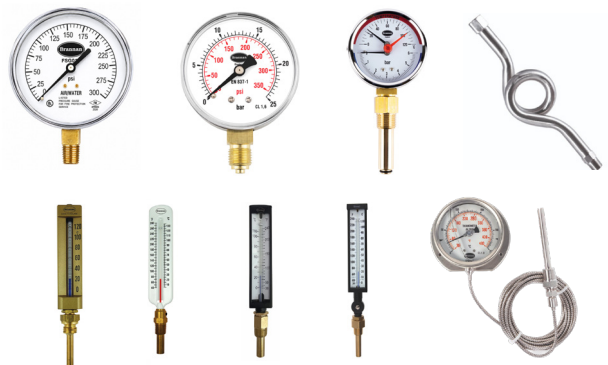

Founded in 1913 in the UK, Brannan is a leading global manufacturer and market leader in HVAC and industrial pressure gauges and thermometers, backed by an advanced UK calibration laboratory.

INSTRUMENTS

Pressure gauges, dial thermometers, V-line and hot water thermometers, and digital meters.

ACCESSORIES & FITTINGS

Gauge cocks, needle valves, syphons, thermometer pockets, thermowells, industrial test plugs, and black steel flanges.

TRUPER HAND TOOLS

A world-class leader and premier Latin American manufacturer, Truper offers high-quality hand tools, hardware, and job-site equipment trusted globally for professional and domestic applications.

STRIKING & LONG-HANDLE TOOLS

Axes, hammers, picks, sledges, shovels, and garden tools.

GENERAL HAND TOOLS

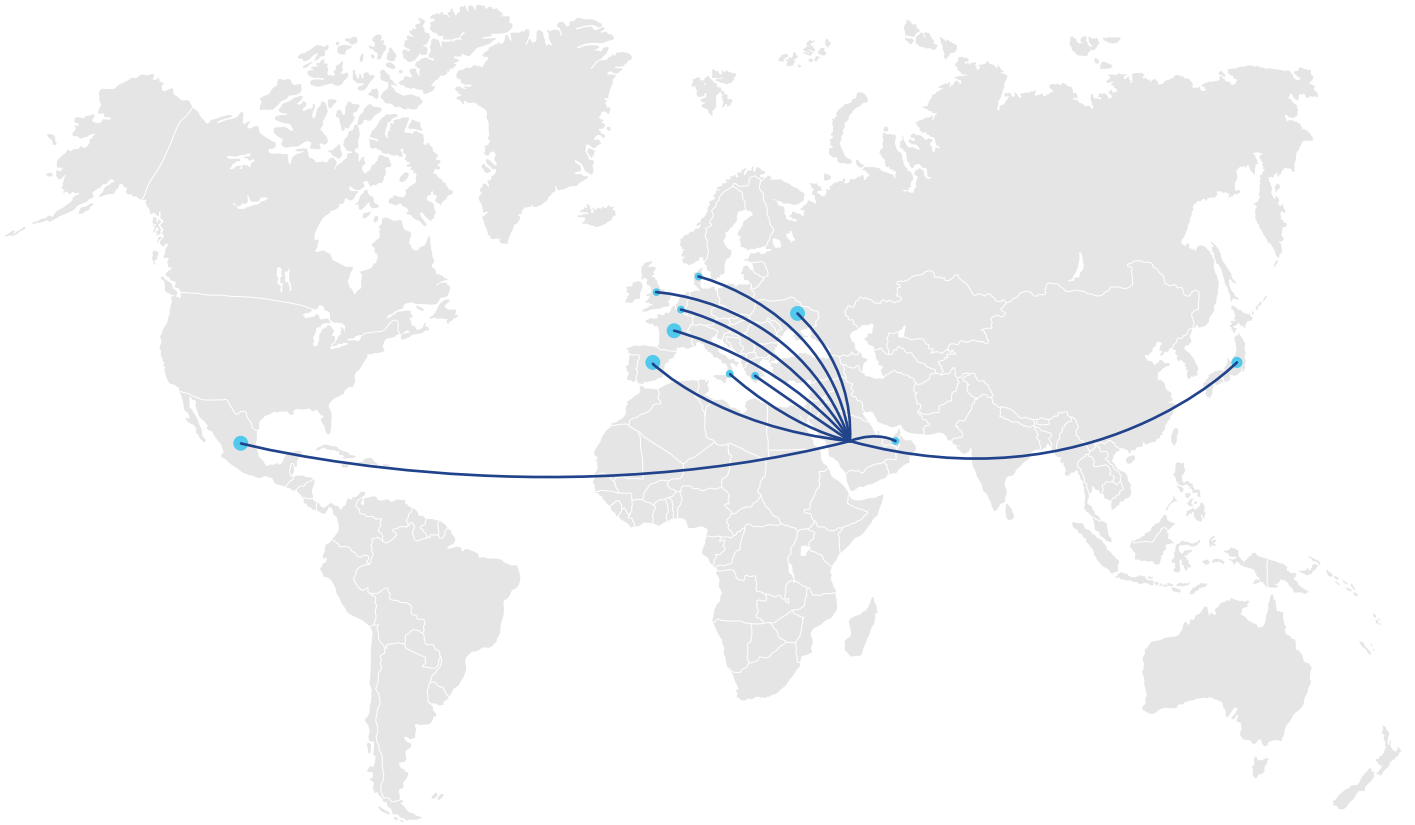

Wrenches, pliers, screwdrivers, sockets, and measurement instruments.

CONSTRUCTION & EQUIPMENT

Drill machines, angle grinders, cutting machines, masonry tools, and tool storage.

SOURCING GLOBAL EXCELLENCE. SERVING SAUDI ARABIA
